2. Creating connection for WinXP

Follow the steps for creating windows XP dialer

Step 1 click start>setting>network connections as the below **Figure-2.1**

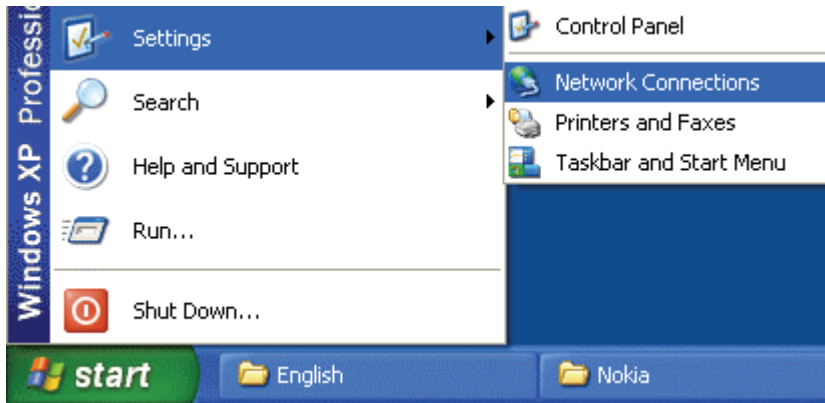

Figure-2.1

Step 2 Click the File menu from the left side of the menu bar and click the new connection (**Figure-2.2**)

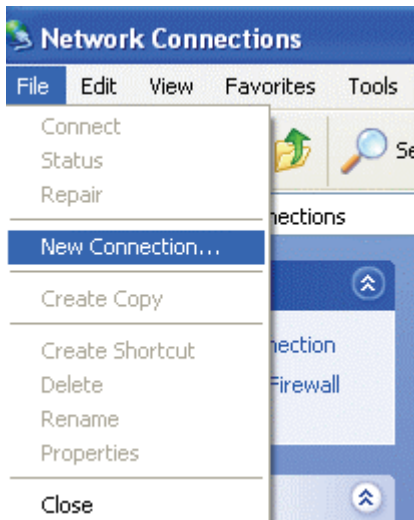

Figure-2.2

Step 3 click **next** button and select the **connect to the internet** and click **next** (**Figure-2.3**)

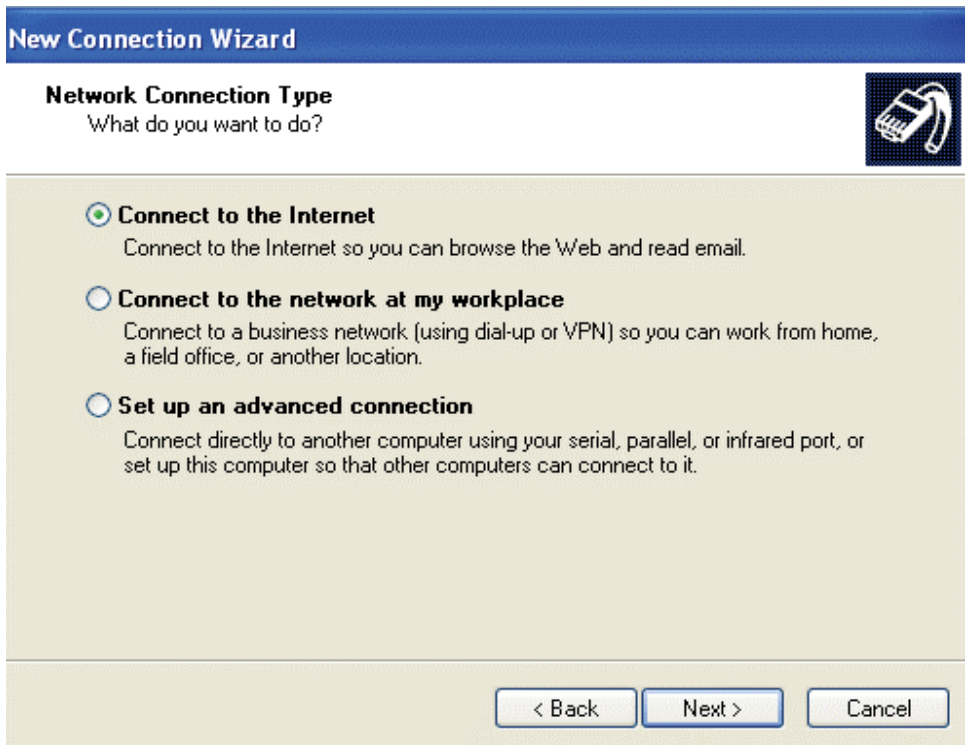

Figure-2.3

Step 4 select the **setup my connection manually** and click **next** (Figure-2.4)

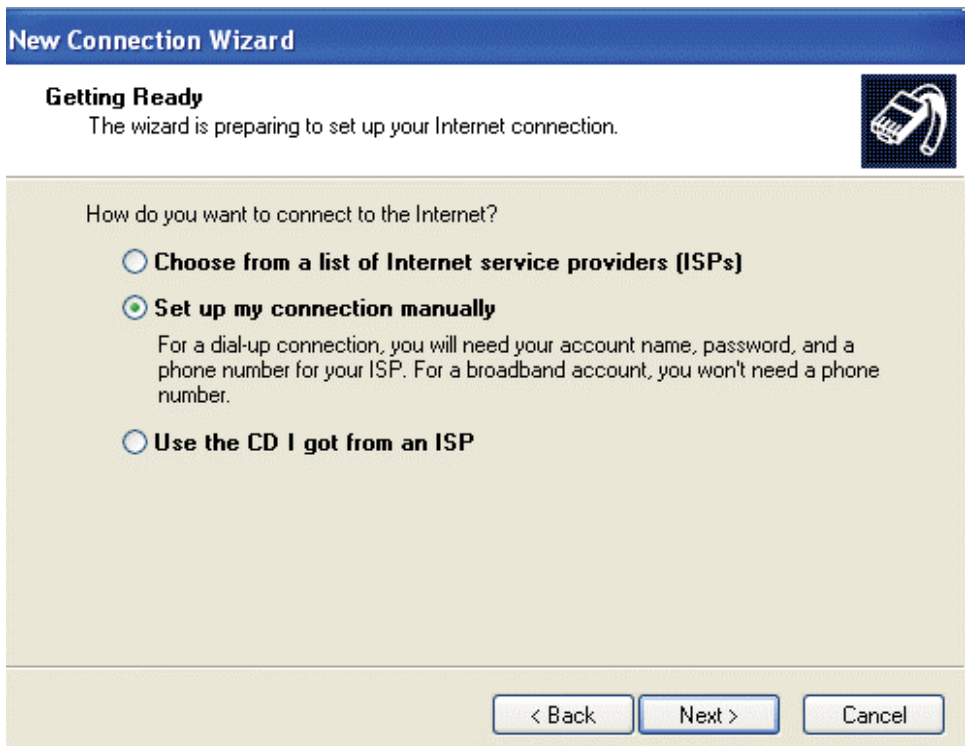

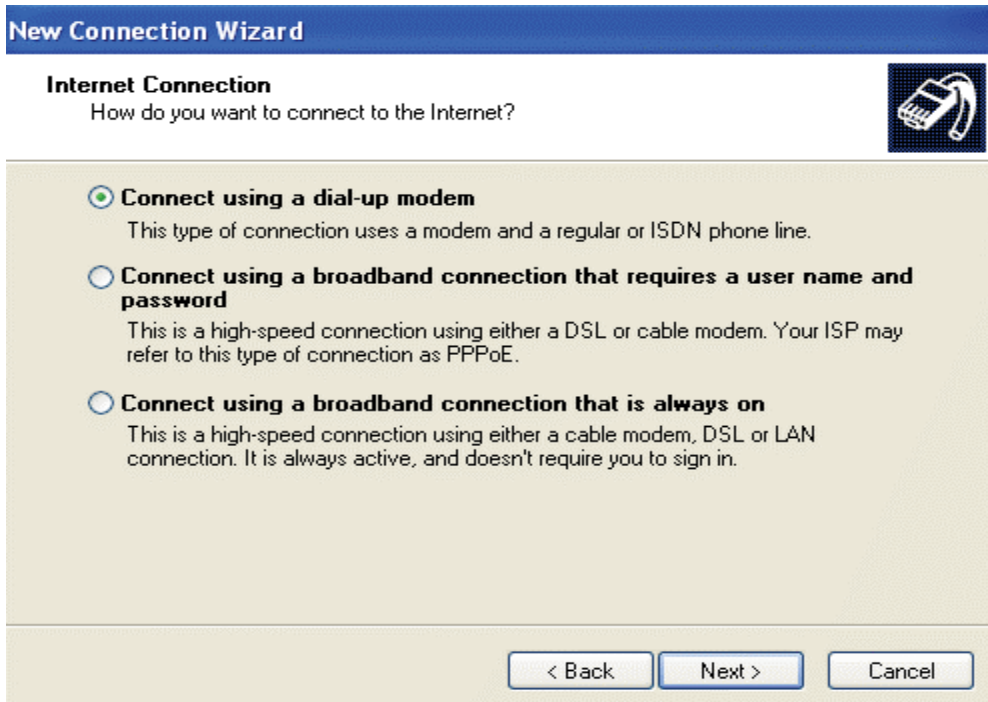

Figure-2.4

Step 5 Choose the select **connect using dial-up modem** and click **next (Figure-2.5)**

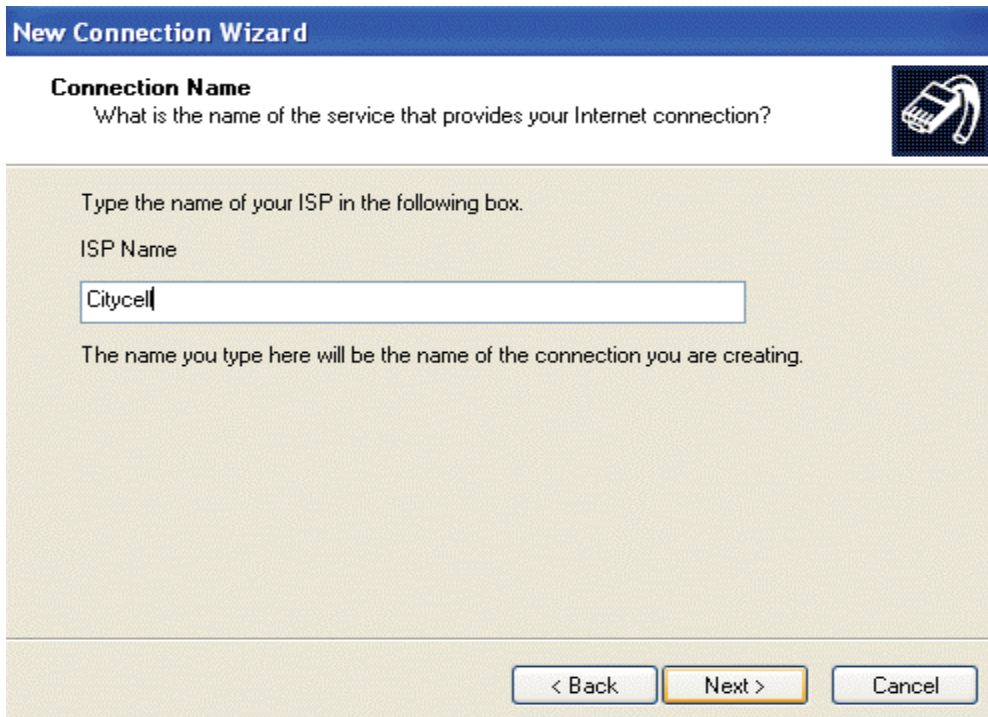

The screenshot shows the 'New Connection Wizard' dialog box. The title bar is blue with the text 'New Connection Wizard'. Below the title bar, the text 'Internet Connection' is displayed in bold, followed by the question 'How do you want to connect to the Internet?'. To the right of this text is a small icon of a modem. Below the question, there are three radio button options:

- Connect using a dial-up modem**
This type of connection uses a modem and a regular or ISDN phone line.
- Connect using a broadband connection that requires a user name and password**
This is a high-speed connection using either a DSL or cable modem. Your ISP may refer to this type of connection as PPPoE.
- Connect using a broadband connection that is always on**
This is a high-speed connection using either a cable modem, DSL or LAN connection. It is always active, and doesn't require you to sign in.

At the bottom of the dialog box, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Figure-2.5

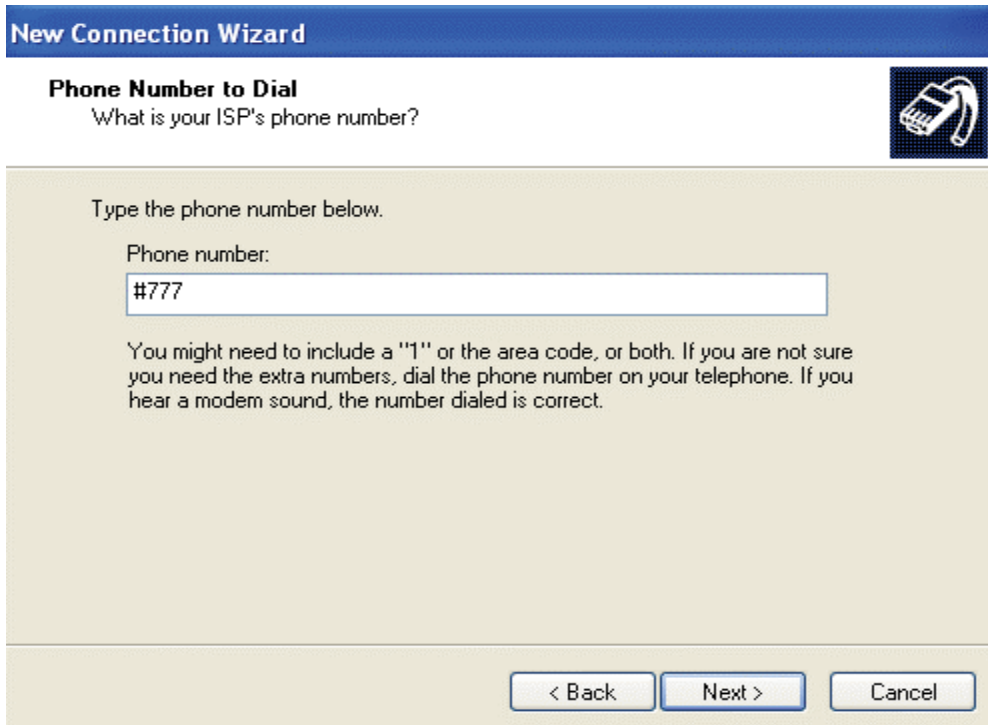

Step 6 write the name of your service provider as **Citycell (or Any Name)** in the **ISP Name field (Figure-2.6)**

The screenshot shows the 'New Connection Wizard' dialog box. The title bar is blue with the text 'New Connection Wizard'. Below the title bar, the text 'Connection Name' is displayed in bold, followed by the question 'What is the name of the service that provides your Internet connection?'. To the right of this text is a small icon of a modem. Below the question, there is a text box with the prompt 'Type the name of your ISP in the following box.' and 'ISP Name'. The text box contains the text 'Citycell'. Below the text box, there is a note: 'The name you type here will be the name of the connection you are creating.' At the bottom of the dialog box, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Figure-2.6

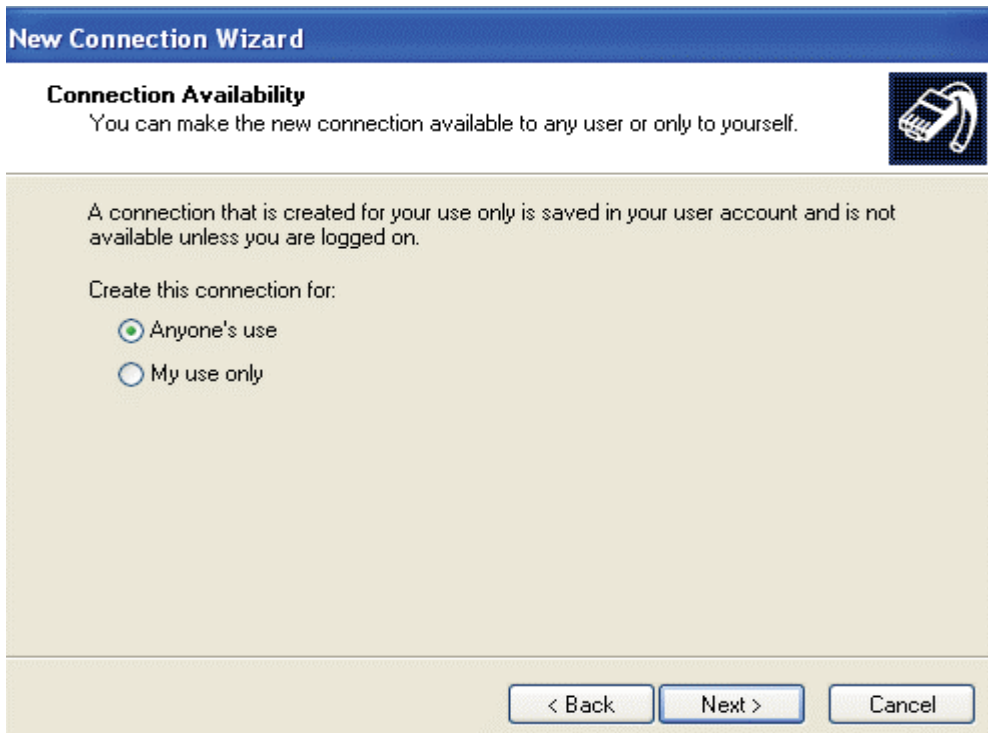

Step 7 write the phone number as **#777** (**Figure-2.7**)

The screenshot shows a window titled "New Connection Wizard" with a blue header bar. Below the header, the title "Phone Number to Dial" is displayed in bold, followed by the question "What is your ISP's phone number?". To the right of the text is a small icon of a telephone handset. The main area of the window is light beige and contains the instruction "Type the phone number below." followed by "Phone number:" and a text input field containing "#777". Below the input field, there is a paragraph of explanatory text: "You might need to include a '1' or the area code, or both. If you are not sure you need the extra numbers, dial the phone number on your telephone. If you hear a modem sound, the number dialed is correct." At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel".

Figure-2.7

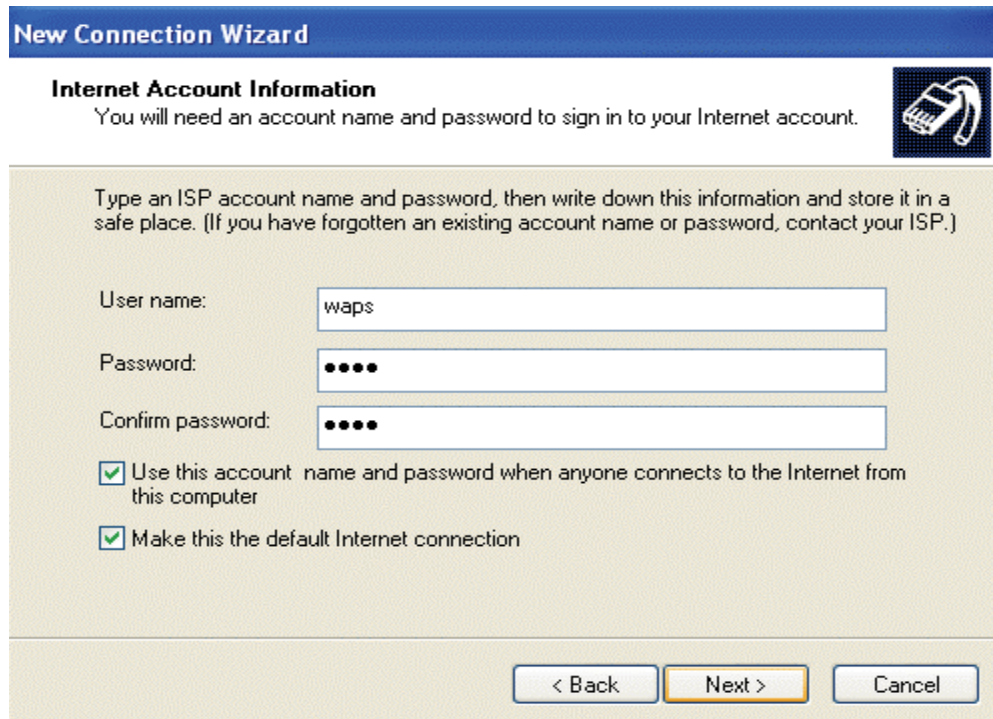

Step 8 select **Anyone's use** and click **next**. (**Figure-2.8**)

The screenshot shows a window titled "New Connection Wizard" with a blue header bar. Below the header, the title "Connection Availability" is displayed in bold, followed by the text "You can make the new connection available to any user or only to yourself." To the right of the text is a small icon of a telephone handset. The main area of the window is light beige and contains the text "A connection that is created for your use only is saved in your user account and is not available unless you are logged on." followed by "Create this connection for:" and two radio button options: "Anyone's use" (which is selected) and "My use only". At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel".

Figure-2.8

Step 9 write the username **waps** and password **waps** (**Figure-2.9**)

The screenshot shows the 'New Connection Wizard' dialog box. The title bar reads 'New Connection Wizard'. Below the title bar, the section is titled 'Internet Account Information' with a small icon of a mobile phone. The text says: 'You will need an account name and password to sign in to your Internet account.' Below this, there is a paragraph: 'Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)' There are three input fields: 'User name:' with the text 'waps', 'Password:' with four dots, and 'Confirm password:' with four dots. Below the input fields are two checked checkboxes: 'Use this account name and password when anyone connects to the Internet from this computer' and 'Make this the default Internet connection'. At the bottom right, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Figure-2.9

Step 10 Click the **finish** button and **tick a mark** for shortcut to this connection.(**Figure-2.10**)

The screenshot shows the 'New Connection Wizard' dialog box. The title bar reads 'New Connection Wizard'. The main area has a dark blue background with a globe icon on the left. The title of the section is 'Completing the New Connection Wizard'. The text says: 'You have successfully completed the steps needed to create the following connection:'. Below this, there is a section titled 'Citycell 2' with a bulleted list: 'Make this the default connection', 'Share with all users of this computer', and 'Use the same user name & password for everyone'. Below the list, there is a paragraph: 'The connection will be saved in the Network Connections folder.' There is one checked checkbox: 'Add a shortcut to this connection to my desktop'. Below this, there is a paragraph: 'To create the connection and close this wizard, click Finish.' At the bottom right, there are three buttons: '< Back', 'Finish', and 'Cancel'.
